KEY INFORMATION FOR PANEL MEMBERS

- The Assessment and Discrepancy Panel schedule is carefully planned to allow sufficient time for finalising and entering student results into TRACS before each meeting. Courses with larger student numbers are scheduled later to accommodate the additional workload.
- Due to the logistical and resourcing considerations involved in creating this schedule, meeting dates **cannot** be changed on request.
- Please **do not** arrive more than 15 minutes before your scheduled meeting time. Staff may not be available to assist you, your meeting space may not yet be ready, and support for early starts or queries cannot be guaranteed.
- Please bring your own device, as access to TRACS is required for resulting processes undertaken during the panel meetings.
